To whom it may concern,

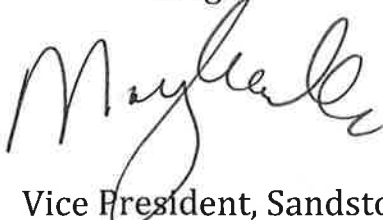

I wanted to express my thanks to Dr. Anmol Kapoor and the whole team at CardiAI Labs, for their professionalism and support in our most recent launch of PCR testing. Our previous relationship with CardiAI, through AFIB screening and patient support, was a great pre-cursor to the amazing programs that this team are developing, and it has been taken to a new level with their lab processes around PCR testing.

Our patients have been very impressed with the speed, documentation and accuracy of the testing and any communication from our stores to the lab, has only been first class. The support that the CardiAI team has shown us to help roll the testing out, create policy and procedures and create a patient-facing booking portal, have been instrumental in effectively integrating this into our clinical practice. We pride ourselves on delivering patients a comprehensive clinical practice and the PCR testing process is a welcome addition to our service menu.

We look forward to the coming months where we can slowly resume normalcy in our lives. Our stores and patients believe that PCR testing will be a part of the resumption of regular life, and we are proud to have CardiAI as our partner in achieving this.

Sincerely,

Marco Casagrande
