RE: Reference Letter for CardiAI

To whom it may concern:

Dr. Kapoor and the CardiAI team of physicians, scientists, and engineers have combined the latest in technology and health sciences with their passion for people and humanity to develop a COVID test that is fast, accurate and cost-effective.

After using it in our family, I am a strong proponent of the accuracy, simplicity of this test and the people behind it. It is the test we recommend to our family members, business partners and customers, to keep them safe as we rebuild our economy.
